Honoring Our History and Embracing Our Future

## About Highfield Hall & Gardens

The house is a rare surviving example of transitional Stick Style architecture, containing beautiful gardens located in the heart of Falmouth, Massachusetts. It is a unique combination of a historic house, expansive gardens and trails, and a vibrant cultural center. Built in 1878 as the summer home for Boston's Beebe family, the house sits on 7 pristine acres surrounded by nearly 400 acres of conservation land and public walking trails. Highfield Hall & Gardens is not your typical historic estate. It is an example of a historic building saved by grassroots community organizing. An effort of tenacity and vision that continues as new research on the structure and its story of the people who lived here add to the building's significance. It offers world-class music, international art exhibitions, culinary classes, family programs, and year-round special events.
